# soak or a-save

## sustainable meetings

## welcome to Aloft!

...and thank you for considering our fresh and energetic approach to events. The playful setup of our hotel and "tactic" rooms goes far beyond the traditional and will ensure your invitees have an a-list experience that is cool, casual, comfortable and created with a sustainable mindset.

With great pleasure we herewith send you our offering.

In case of any further questions or need for information, please contact us - we would be delighted to help!

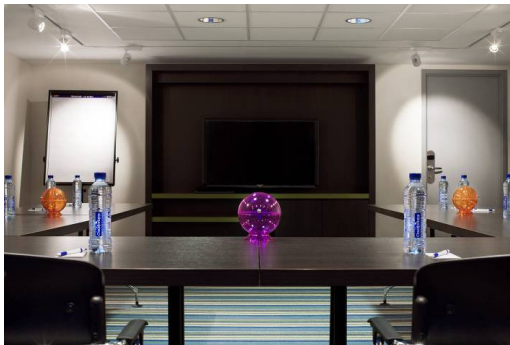

## why we care

aloft takes pride and effort in making your meetings "sustainable" by reducing waste, energy and time consuming procedures. Just to make your live easy breezy!

## what we do

we try to make it as easy for you as possible, below some of our efforts

- we only use recycled paper - but the nice sort, you won't even notice!
- make meeting planning easy; book via Stargroups - To simplify your next event's logistics, speak to your Starwood representative
- Sustainable meeting supplies; we took rid of the unnecessary; we don't like table cloths and old fashioned flower bouquets
- recycling; it's all in our own hands - a little extra work will make a difference. we make it possible with separated waste bins
- our lighting and air-conditioning saves energy, but we'll leave you nicely warm.. or cold!
- getting here; park your hybrid or electric car for free at aloft, or come by bike. there is a *Villo!* bike station right in front of the hotel or 2 main metro stations within just a minute stroll.

# considerations

important info

## general information & policies

all food & beverage must be purchased and served by the hotel. Printed menus are for general reference & our event staff would be happy to customize to your specific needs. Menu pricing is subject to change.

## shipping

if shipping materials to the hotel, please include company/group name, event manager & date of meeting on the outside of the package. The hotel cannot assume responsibility for the damage or loss of merchandise sent for storage.
